<p>Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>

Continuation of 11. does NOT place the application in condition for allowance because: Figures 1-3 of Metcalfe discloses the expander device moving along the tubing and expanding the tubing. Metcalfe discloses that the rollers of the first expander section 30 do not move in a radial outward direction, therefore as seen in figures 1-3 as the expander is moved along the tubing the tubing is expanded by the rollers of the first expander to an intermediate diameter (angled portion of the tubing) and the portion of the expander directly above the rollers of the first expander (i.e. hoop stress inducing expansion member) further expands the tubing to the straight tubing with an expanded diameter as the expander moves further down the tubing .
